

Celebration Church Child Sponsorship

July 2025

School of Champions!

We're finishing up our **second term** and the school is buzzing with life! Students across all levels—from **preschool to secondary**—are settling into routines, learning well, and showing real growth. It's a joy to watch them flourish day by day.

A beautiful morning start as the whole school gathers before the day begins.

We especially love seeing the **joy and curiosity** in our little ones—like this sweet girl, full of potential and promise.

New Beginnings: Girls' Soccer Takes the Field

We're excited to share that our **first-ever girls' soccer team** has launched! Our Grade 8 girls played their very first match—though it was a tough game, they're full of excitement and already looking ahead to **three more games** this season.

This team is about more than just sports—it's about **confidence, teamwork, and trying something new**. We can't wait to see how they grow.

Thank you for making it possible for each of these children to learn, grow, and dream.

Serve Day

Community Involvement

This term, our students and staff joined **Serve Day International**, choosing to give back by visiting a neighboring school that lacked basic supplies and helping a grandmother build a better home. We brought cleaning materials and cement tools, rolled up our sleeves, and helped clean classrooms and campus areas and lay cement blocks and a new roof.

The school community was so grateful for the supplies and support. The grandmother, whose child attends School of Champions, shed tears of appreciation. Thank you for helping us **instill compassion and service** in our students.

Pre-School Teacher, Anizia cleaning community school classroom.

Program Director, Orlando, building community home.

Every photo in this newsletter represents a story of growth, joy, and impact—all made possible by your **support**. From the classroom to the soccer field, and in moments of service and celebration, your sponsorship is **changing lives**.

Thank you for investing in these children, their education, and their future.
