Preschool Graduation Celebration

One of the most joyful highlights of November is our **Preschool Graduation Ceremony!**

This year's graduates have memorized several Bible verses, learned to write the alphabet and numbers, identified shapes and colors, practiced early math, participated in Bible stories, and grown in confidence with their classmates and teachers.

It's fun to capture the pure joy of these little ones as they step into the next stage of their education. For many families, this is the first graduation ever celebrated in their home.

Your sponsorship gives the students:

- A safe start in education
- Teachers who greet them by name
- Nutritious daily meals for body and mind
- Comprehensive health and developmental screenings
- A foundation of faith to guide their future

Because of your generosity, children across Mozambique are stepping into futures that once felt out of reach. Your partnership is shaping hearts, opening doors, and giving every student the chance to discover who God created them to be.

Greetings from Mozambique

As November passes, we step into the final month of the school year here in Mozambique. The weather is changing quickly **hot, humid, and full of energy**, much like June in Texas. Even with the rising temperatures, our students continue showing extraordinary determination as they finish exams, prepare for transitions, and celebrate major milestones.

End-of-Year Exams

A Season of Focus & Growth

Students from primary through secondary levels sat for their end-of-year tests—some preparing with their tutors, others studying together after school.

- The School of Champions makes moments like these possible:
- Safe, structured learning environments
- Qualified teachers and after-school tutors
- Encouragement and discipleship that strengthen each child to do their best
- Cultivating Strong Christians—rooted in truth, community, and calling.

Art & Imagination

This month, our art classes became a bright spot in the school day as students painted and sketched with excitement. Many discovered new abilities while others grew more comfortable taking creative risks and trying new forms of expression.

Your support is more than provision—it is a witness of God's love at work. Through you, young believers are learning, flourishing, and rising with confidence to serve Christ and their communities. We are grateful for your faithfulness.
